T-Paks are made with two different types of Materials: Marine Grade Polyester or a Vinly Coated Mesh. Both are extremely durable and weather resistant. The vinyl coated mesh allows the T-Pak™ to breathe.

(4) 2" quik release clips
with adjustable straps

installs easily on any
T-Top or Hard-Top

heavy-duty front zipper or
rip-away velcro on the Offshore

designed to fit (4 to 6) Type II Life Jackets
Offshore holds Type I Life Jackets

|----------|-----------------------------------|
| 4-PAK | 25.5" wide x 20" deep x 5.5" high |
| 6-PAK | 38.0" wide x 20" deep x 5.5" high |
| Offshore | 32.0" wide x 25" deep x 7.5" high |

patent pending

INSTALLING YOUR T-PAK

Our Universal T-Pak™ installs easily on any T-Top or Hard-Top

The straps of the T-Pak™ go over any supporting bars (indicated by the YELLOW arrows) and around the outer ring (indicated by the BLUE arrows) and clip together with our quick release clips. By tightening the slack on the draw straps, your T-Pak™ is neatly placed tight to your Top.

DIMENSIONS

| | |
|-----------------|-----------------------------------|
| 4-PAK | 25.5" wide x 20" deep x 5.5" high |
| 6-PAK | 38.0" wide x 20" deep x 5.5" high |
| Offshore | 32.0" wide x 25" deep x 7.5" high |

WHAT IS A T-PAK?

The T-Pak™ is a uniquely designed storage pack that universally mounts to T-Tops, and Hard-Tops. It's the perfect way to clear your front storage compartments and make room for their real use. The T-Pak™ can mount in the front and/or rear of your Top, and is designed to fit (4 to 6) Life Jackets or many other items. There is a heavy-duty front zipper flap that allows quick access to your Life Jackets, lines, or whatever you decide to store. The Offshore featured below has a Velcro rip-away front flap.
